Advisory Action Before the Filing of an Appeal Brief	Application No. 09/987,098	Applicant(s) OH, SUK SANG	
	Examiner Yasin M. Barqadle	Art Unit 2153	

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 22 December 2005 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. ☒ The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) ☒ The period for reply expires 3 months from the mailing date of the final rejection.
b) ☐ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

2. ☐ The Notice of Appeal was filed on _____. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

AMENDMENTS

3. ☒ The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because
(a) ☐ They raise new issues that would require further consideration and/or search (see NOTE below);
(b) ☐ They raise the issue of new matter (see NOTE below);
(c) ☒ They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
(d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: See Continuation Sheet. (See 37 CFR 1.116 and 41.33(a)).

4. ☐ The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).
5. ☐ Applicant's reply has overcome the following rejection(s): _____.
6. ☐ Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
7. ☒ For purposes of appeal, the proposed amendment(s): a) ☐ will not be entered, or b) ☒ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.
The status of the claim(s) is (or will be) as follows:
Claim(s) allowed: None.
Claim(s) objected to: None.
Claim(s) rejected: 1-5, 7-13, 15-19, 21-25 and 27.
Claim(s) withdrawn from consideration: 6, 14 and 20.

AFFIDAVIT OR OTHER EVIDENCE

8. ☐ The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).
9. ☐ The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing of a good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).
10. ☐ The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached.

Continuation of 3. NOTE: In response to Applicant's arguments in page 10 that the cited sections "do not teach or suggest a mobile node sending a notification to the first foreign agent" as noted in final action response Dommety teaches a (first foreign agent receives a binding update message from a new foreign agent. Mobile node informs (notifies) the new foreign agent about the location of the old foreign agent. Furthermore, "The Receiving Mobile Node then connects to a different second router in block 260. For example, the Receiving Mobile Node moves from its HA to an FA, from FA1 to FA2, or from an FA back to its HA. The Receiving Mobile Node then registers its new address with its HA in block 262." (Col. 7, 9-49 and col. 11, lines 26-44). In response to Applicant's arguments in page 11 second paragraph that "Dommety does not disclose the first foreign agent sends stored packets to the second foreign agent." Examiner notes that the updated information is stored in a first foreign agent where buffering is performed and retransmission of the data packet to a second foreign agent is done (col. 5, lines 57 to col. 6, line 24; col. 7, 28-56. See also Col. 7, lines 8-27 "During this communication, the Receiving Mobile Node disconnects from a first router and reconnects to a different router. For example, the Receiving Mobile Node moves from the HA's router to a FA router. By way of another example, the Receiving Mobile Node moves from a First FA to a second FA." Examiner also notes that (buffering and triggering are performed by any foreign agent or the mobile node itself (col. 5, lines 29 to col. 6, line 25). Examiner also notes Dommety teaches mobile node 6 roaming to a remote network 14, home agents 8 and 10 updating their internal mobility binding, and eventually forwarding packets destined to mobile node 6 to its care of address (FA) via the Home Agent (col. 2, col. 1-48). .
